PROFESSIONAL SUMMARY

Data Analyst with hands-on experience transforming raw data into actionable insights through data cleaning, exploratory analysis, SQL, Excel, Python, and Power BI. Skilled in developing data-driven projects across healthcare, customer retention, and business intelligence. Strong interest in using analytics and technology to solve practical problems, communicate insights clearly, and support better decision-making. Pharmacy student developing a focused career at the intersection of healthcare and data.

PROJECTS

Customer Churn & Retention Analysis | Python • SQL • Power BI

- Analyzed customer behavior and subscription patterns to identify factors associated with customer churn.
- Performed data cleaning, segmentation, exploratory analysis, and business-focused insight generation.
- Developed recommendations to support customer retention and reduce potential revenue loss.

Heart Disease Risk Analysis | Python • Power BI

- Conducted exploratory analysis of patient health and clinical variables to identify patterns associated with heart disease.
- Cleaned and prepared a healthcare dataset while investigating missing and potentially inconsistent values.
- Developed an interactive Power BI dashboard to communicate key health trends and insights.

Retail Sales Analysis | SQL • Power BI • Excel

- Analyzed sales data to identify revenue trends, product performance, and business opportunities.
- Created business-focused visualizations and KPIs to support data-driven decision-making.

EDUCATION

University of Nigeria, Nsukka (UNN)

2027

Bachelor of Pharmacy (Pharm.D./B.Pharm.)

Relevant Interests: Healthcare Analytics • Data Science • Health Economics & Outcomes Research

TECHNICAL SKILLS

Data Analysis

Data Cleaning • Exploratory Data Analysis • Statistical Analysis • Insight Generation

Programming & Querying

Python • SQL

Business Intelligence

Power BI • KPI Development • Dashboard Development • Business Reporting

Productivity & Workflow

Microsoft Excel • Jupyter Notebook • GitHub

Professional

Data Visualization • Data Storytelling • Problem Solving • Communication • Research

Analytics

Customer Segmentation • Churn Analysis • Healthcare Analytics
